

Light the Light Love

Oh light the light love to welcome me
And shine the light love way out to sea.
I'll see the light love through wave and foam,
So light the light love I'm coming home.

**Oh light the light love to welcome me
And shine the light love way out to sea.
I'll see the light love through wave and foam,
So light the light love I'm coming home.**

A long time ago the orders came,
Just as love's embers became a flame.
I had to go love we had to part
But leaving you my love it nearly broke my heart.

I had to go across the sea.
Was there a future for you and me?
Your lovely face no more I'd see,
So I held tight my love to your sweet memory.

In times of danger you held my mind
And all around me your love I'd find.
You brought me through love you kept me sane,
And now my thoughts are turned to you and home again.

Chorus x 2
