

Noah's Ark Shanty

There were three ships in Frisco Bay

To me way, hay, hay, O

There were three ships in Frisco Bay

A long time ago.

And one of them ships was Noah's old ark

All covered all over with hickory bark.

The animals came in two by two

The elephant, bull and the kangaroo

The bull and the cow they started for t' row

The bull and the cow they started for t' row.

Noah said stop yer rowin' with a crack of his whip

Now come stop this rowin' or I'll scuttle the ship.

But the bull put his horn through the side of the ark

And the little black dog he started to bark.

Old Noah took this dog and shoved his nose in the hole

And ever since then the dogs' nose has been cold.

And it's a long, long time and a very long time

It's a long, long time and a very long time
